EDUCATION

University of Central Florida

Bachelor of Science in Computer Science, Minor in FinTech

University of Central Florida

Bachelor of Science in Biology

- Dean's List

Orlando, FL

Expected 2027

Orlando, FL

2023

PROJECTS

Multi-Mapping GIO Mobile App | *React, JavaScript, HTML, CSS, Map API, Figma, Jira* May 2025 – Present

- Developed a React-based front-end application supporting real-time location tracking and multi-point route visualization
- Integrated third-party Map APIs to process live GPS updates and dynamically render responsive navigation interfaces
- Collaborated within Agile development sprints using Jira to implement maintainable front-end features, resolve bugs, and improve software quality
- Worked closely with UI/UX principles in Figma to design responsive mobile-first user experiences and improve usability

ClearView AI – Software Lifecycle Cleaner | *Node.js, React, Prisma, Gemini API*

July 2025

- Integrated Gemini API functionality to process unstructured input and dynamically render extracted metadata within the UI
- Implemented reusable front-end components and debugging strategies to improve maintainability and application performance
- Documented workflows, validation logic, and error-handling processes to support scalable software development practices

Custom Compiler & Virtual Machine | *C*

September 2025

- Developed an end-to-end compiler in C supporting tokenization, parsing, code generation, and virtual machine execution
- Researched and implemented formal grammar and parsing techniques to support compiler functionality and software design

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C, C++, C#, HTML, CSS, SQL

Front-End Technologies: React, React Native, HTML5, CSS3, Responsive Design, UI Component Development

Frameworks & Libraries: Node.js, Express, Spring Boot, FastAPI

Developer Tools: Git, GitHub, Jira, AWS, VS Code, Visual Studio, Figma

Databases: PostgreSQL, SQL, Prisma

Certifications: AWS Cloud Operations, AWS Cloud Security Foundations

EXPERIENCE

Bar Back Trainer/Supervisor

January 2020 – Present

Twin Peaks Restaurants

Altamonte Springs, FL

- Collaborated with team members in a fast-paced environment to maintain efficient daily operations and customer-focused service
- Trained and onboarded 10 new employees by documenting workflows, providing guidance, and supporting collaborative team development
- Applied problem-solving and communication skills to resolve operational issues and improve workflow efficiency during high-volume service hours

RELEVANT COURSEWORK

Data Structures & Algorithms, Object-Oriented Programming, Software Engineering, Mobile Device Software Development, Human-Computer Interaction, Systems Software, Database Concepts, Discrete Mathematics

ORGANIZATIONS

Society of Hispanic Professional Engineers (SHPE)

Aug. 2023 – Present
